

Learning by Doing: Building Skills Through Vocational Training

At SEED, vocational training helps students build practical skills, confidence, and independence through meaningful hands-on experiences. As part of the programme, students create home care products such as floor cleaner, toilet cleaner, dishwash liquid, handwash, and phenyl lotion under guided supervision, with a strong focus on safety and quality.

Through these activities, students develop fine motor skills, hand-eye coordination, focus, creativity, the ability to follow instructions, and essential vocational and work-readiness skills. Every step in the process encourages responsibility, teamwork, and a sense of achievement.

Recently, our students showcased and sold these products at an event organised by Hindu Mahila Samajam. Alongside the home care products, the stall also featured locally sourced vegetables, giving students the opportunity to interact with the community and experience the pride of sharing the fruits of their hard work.

Take Home More Than a Product
Our student-made home care products are now available for purchase. Every order encourages learning, nurtures potential, and supports the work of SEED.

A New Digital Home for SEED

We're delighted to launch the revamped SEED School website: a fresh digital space that reflects who we are, the work we do, and our vision of creating a more inclusive future for children with special needs.

The new website offers an easier way to explore our programmes, learn about our students, follow updates from SEED, discover ways to support our mission, and connect with us. Whether you're a parent, donor, volunteer, or well-wisher, we hope it becomes a window into our journey and the impact we strive to create every day.

We extend our heartfelt gratitude to Nerdiance Technologies for partnering with us in designing and developing this website. Their generous support and expertise have helped us create a platform that will strengthen our outreach and help more people become part of the SEED family.

Educate & Empower the Differently Skilled

The Society to Educate and Empower the Differently Skilled (SEED) is on a mission to establish a school in Trivandrum specifically designed to meet the learning and developmental needs of children on the autism spectrum.

Nurturing Nature, Together

On World Environment Day, our students marked the occasion by planting a sapling on the SEED campus: a small gesture with a lasting impact.

Celebrating International Yoga Day

Students from SEED joined children from Nirmala Bhavan Higher Secondary School and other special schools across Thiruvananthapuram to celebrate International Yoga Day at a joyful and inclusive event organised by Special Olympics Bharat in association with Nirmala Bhavan Higher Secondary School.

The programme was inaugurated by the Honourable Speaker of the Kerala Legislative Assembly, Shri Thiruvanchoor Radhakrishnan, and the yoga session was led by Mr. Rajesh, Coach at Special Olympics Bharat.

SEEDs of Promise

Meet Nashid M R!

Nashid joined SEED with severe physical limitations and was completely bedridden. Through consistent therapy and personalised support, he can now sit independently and has begun to communicate, transforming his quality of life.

Our experience with the school, The SEED, has been truly wonderful. After joining The SEED, we have noticed a significant and positive transformation in our child. We are happy to see his immense growth, both physically and mentally.

The school's supportive and friendly atmosphere has helped him become more active, confident, and expressive. The dedication of the teachers and other staff in guiding each child is deeply commendable. We are highly satisfied with his progress and are grateful to the entire SEED team for their wonderful support.

Rahemath (Nashid's Mother)

Wall of Gratitude

Thankamani Teacher receiving a donation from the Rotary Club of Trivandrum South in support of SEED's new campus development project.

Our morning newspaper reading session is an important part of the school day, helping students develop listening, communication, and general awareness. We are grateful to Deepika for providing newspapers free of cost and supporting this meaningful daily practice.

Our heartfelt thanks to the Inner Wheel Club for their generous contribution to SEED. Every act of kindness and support helps us create brighter opportunities for our students.

Scan and explore ways to support the SEED

A well-wisher sponsored a special lunch for our students in loving memory of a beloved family member. We are deeply grateful for this thoughtful gesture, which brought joy to our children while beautifully honouring a cherished life.

Meet our Faculty

Balu S., Drawing Teacher

"I have been working as the Drawing Teacher at The SEED School since June 2025. I thank God for giving me the opportunity to be a part of this wonderful institution and its meaningful mission.

The learning environment at SEED is truly exceptional. Every child receives education and training tailored to their individual abilities and needs. The school is committed to helping children with special needs become as independent as possible through dedicated and personalised training.

I feel proud to be a part of this journey and to contribute, in my own way, to the growth and development of these wonderful children."

Campus Construction Update

Construction of the administration block is progressing well. Following the completion of the steel framework, masonry work is now underway on the ground and first floors.

CELEBRATE WITH SEED

MAKE EVERY OCCASION MEANINGFUL

Whether it's a birthday, anniversary, festival, retirement, death anniversary, remembrance day, or any milestone, celebrate it by sharing a meal with the children at SEED.

You're welcome to visit SEED and spend time with our students, making your occasion truly memorable.

**CELEBRATE WITH PURPOSE.
REMEMBER WITH LOVE.
GIVE WITH COMPASSION.**
